Be ready to work from everywhere

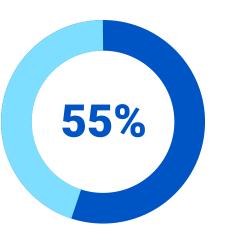

As more organizations embrace hybrid working, equipping employees with accessories that work effectively across workspaces is more important than ever.

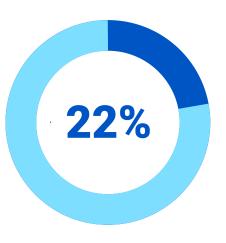

Work from everywhere

40% of organizations expect employees to work just 3 days a week in the office over the next 12 months.

The importance of accessories

55% of organizations say the provision of adequate peripherals is important to work from everywhere.

Taking a tailored approach

Only 22% of organizations have hardware policies based on employees' needs and roles.

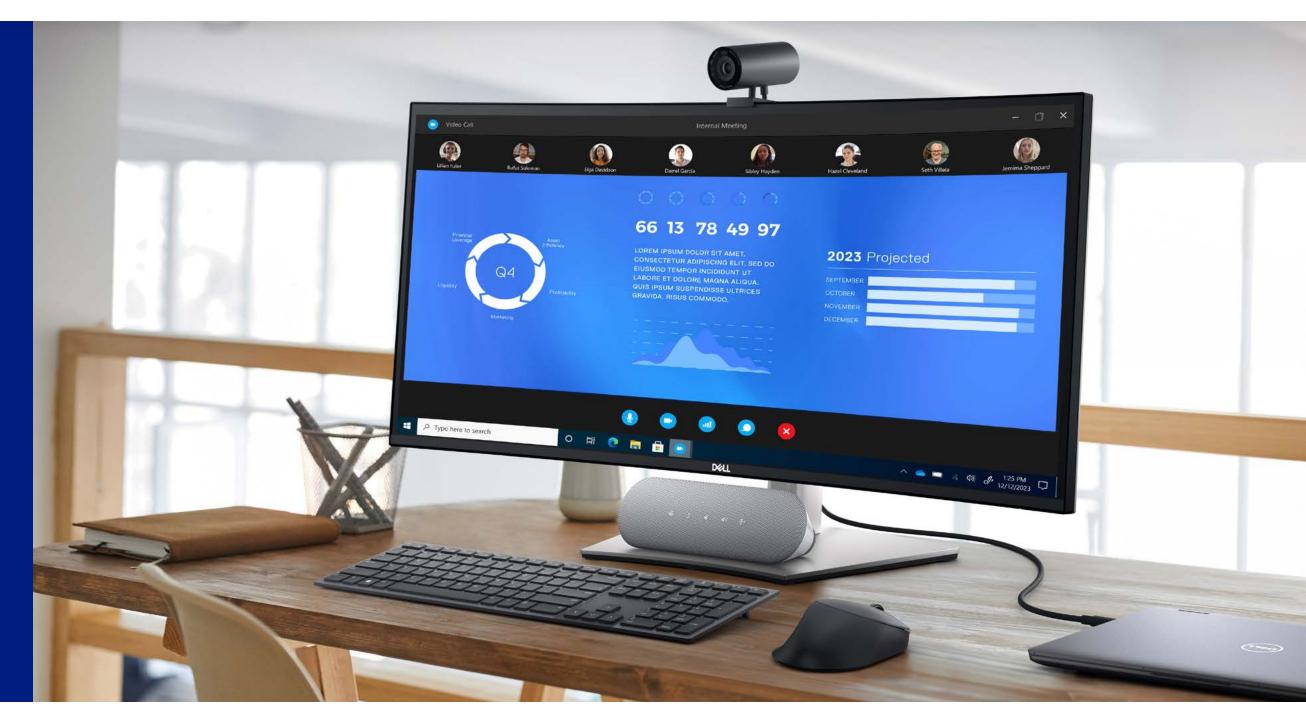

Accessories that bring business benefits

Improve business efficiency and increase productivity by equipping teams with an integrated suite of peripherals.

Streamline IT maintenance

With an integrated suite of Dell peripherals, IT operational efficiency increased by 33%, reducing troubleshooting and updating time for 62% of organizations.

Get a return on your investment

Providing employees with a single suite of peripherals can create an ROI of 303%.

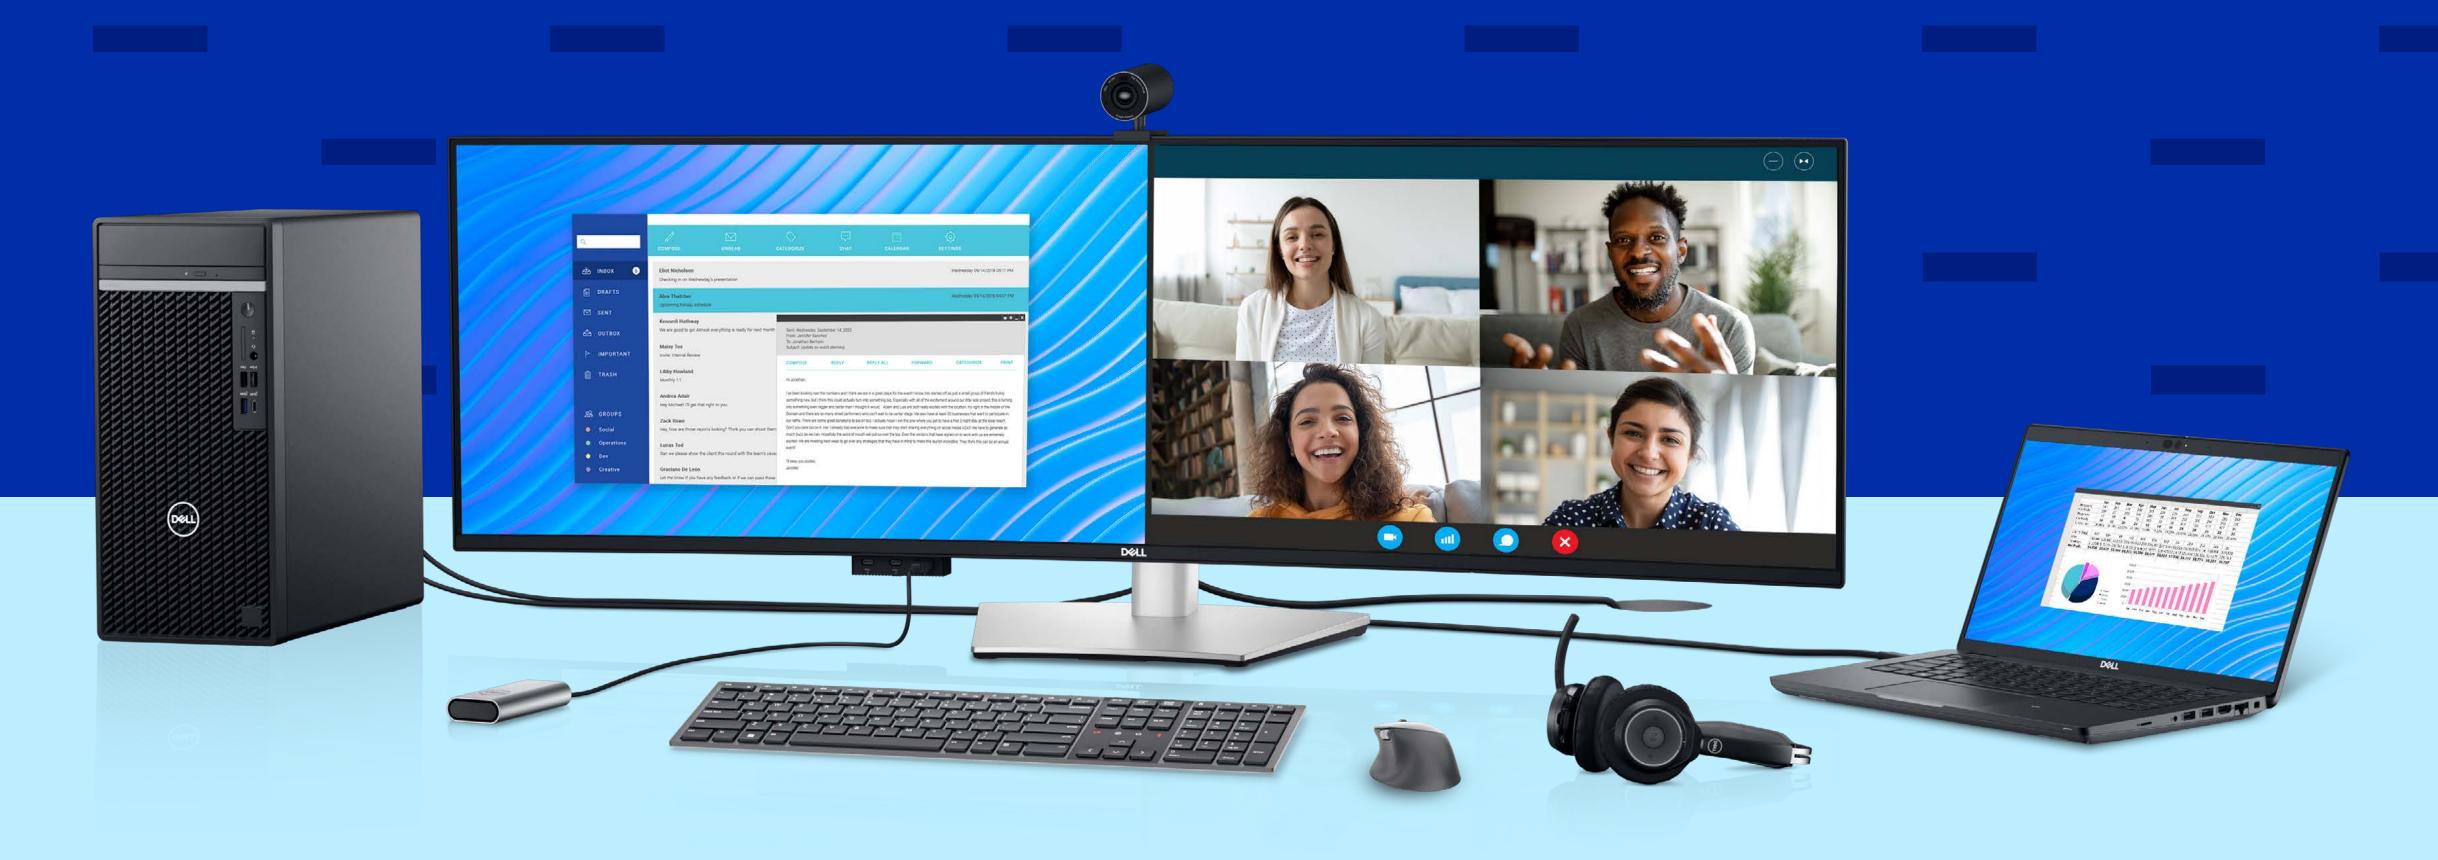

Enhance collaboration

55% productivity gains from better collaboration.

Increase productivity

44% productivity gains from reduced setup time and customizable shortcuts.

WHAT'S NEW

Dell Premier Collaboration Keyboard – KB900

Collaborate effortlessly with the World's first rechargeable keyboard certified by Zoom¹. Compatible also with Microsoft Teams², this keyboard features touch controls, extensive connectivity options, intelligent backlighting and customizable keys.

Effortless and secure collaboration

Confidently control calls with illuminated touch controls³ compatible with Zoom⁴ and Microsoft Teams², and effortlessly switch between up to 3 devices by pressing a key thanks to easy and secure Bluetooth and Dell Secure Link (RF) connectivity.

Enhanced efficiency

Personalize your keyboard by creating shortcuts with 15 programmable keys and control the smart backlighting to work easily in the dark. Thoughtfully designed keys with scissor switch mechanism offer a responsive and quiet typing experience.

Built to last

Recharge using USB-C and get up to 20 days battery life, or fast charge in one minute for a full day's use.⁵ Enjoy peace of mind with the Dell 3-year Advanced Exchange Service.⁶

Product availability may vary by country, please refer to the product page on Dell.com for more information of competitive personal zoom room keyboards, August 2022.

2 Requires Windows OS with Dell Peripheral Manager (version 1.7.2 or later) and Microsoft Teams (version 1.6.00.24078 or later). Requires Third-party App API to be enabled. For more information, refer to user's guide from dell.com/support. 3 Touch controls can only be engaged in one active meeting at any one time (either Zoom or Microsoft Teams). 4 Requires Windows OS with Dell Peripheral Manager (version 1.6.4 or later) and Zoom (version 5.9.3 or later). 5 Battery life calculation based on an assumption of an average use of 8 hours a day. Battery life may vary depending on user and computing conditions. 6 Advanced Exchange Service: Dell will send you a replacement product the next business day in most cases, if deemed necessary after phone/online diagnosis. Shipping times may vary by location. Fee charged for failure to return defective unit. See dell.com/servicecontracts/global.

WHAT'S NEW

Dell Premier Rechargeable Mouse – MS900

Masterfully crafted for optimal all-day comfort, this premium mouse features advanced four-way scrolling and long-lasting battery life.¹

Comfort and productivity

Featuring a smooth, elegant design and comfortable grip, this premium mouse is designed for optimal full-day use while horizontal and vertical scroll wheels deliver more efficient navigation.

Personalized to get more done

Create shortcuts and customizations with Dell Peripheral Manager and three programmable buttons, and enjoy enhanced sensitivity and precision with adjustable DPI and smooth tracking on virtually all surfaces.

Built to last

Enjoy up to three months¹ battery life on a single charge or fast charge via USB-C 2 mins for full-day use. Covered by the Dell 3-year Advanced Exchange Service.²

Product availability may vary by country, please refer to the product page on Dell.com for more information. 1 Battery life calculation based on an assumption of an average use of 8 hours a day. Battery life may vary depending on user and computing conditions. 2 Advanced Exchange Service: Dell will send you a replacement product the next business day in most cases, if deemed necessary after phone/online diagnosis. Shipping times may vary by location. Fee charged for failure to return defective unit. See dell.com/servicecontracts/global.

Collaboration solutions have become critical for organizations to stay connected.

Engineered with intelligent features, Dell Webcam & Audio devices allow you to connect and collaborate with ease, no matter where you work.

Webcams

Elevate your video-conferencing experience with Dell webcams that use built-in intelligent features to deliver professional-grade video quality.

Headsets

Enjoy superior call clarity with these headsets that provide a comfortable and distraction-free calling experience. Collaborate with ease anywhere, with our range of Teams and Zoom certified headsets, also compatible with leading UC platforms.

Speakerphones

Designed to provide clearer and easier communication, these speakerphones offer a great handsfree conferencing experience at home, at work or on the go.

Soundbars

Add a rich audio solution to your setup with soundbars that perfectly complement your Dell monitors, offering a clean-desk experience.

Accessories Start

Background

Elevate your video conferencing experience with Dell webcams, engineered with intelligent features and delivering up to 4K resolution for high-quality collaboration.

Exceptional image quality

Enjoy professional-grade visuals with 4K or 2K cameras with a built in Sony Sensor, multi-element lens and Advanced Image Signal Processing, ensuring video quality is optimized in all lighting conditions. Intelligent features* such as AI auto-framing and auto-light correction help you look your best, always.

Thoughtful design*

Dell webcams are thoughtfully designed to enhance the user experience. Mounting clips make it easy to attach the webcam to your monitor while built-in noise-reducing mics enable clear communication and a shutter cap helps protect your privacy.

Seamless collaboration

Tested to work seamlessly with all Dell hardware and unified communications (UC) platforms, our Microsoft Teams- and Zoom-certified webcams are easy to connect and deploy. Use Dell Peripheral Manager to customize the webcam settings to your preferences and get ready to present your best.

Webcam key features

Look great, always

Engineered with intelligent features, Dell's webcams deliver sharp, bright and outstanding video quality, elevating your video conferencing experience.

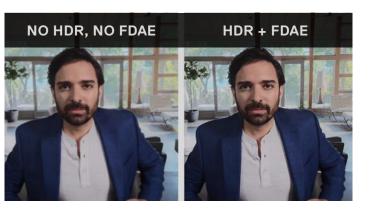

+

Audio

Automatically eliminates grainy images

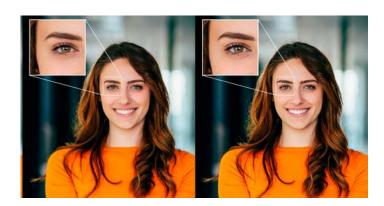

Look your best even in extreme lighting conditions

Intelligent framing to keep you centered

Stunning clarity

Get to work, fast

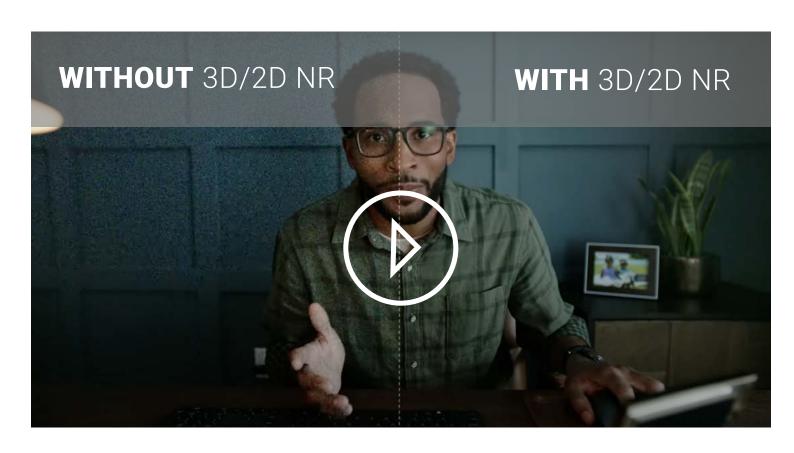

Adjustable Field of View (FOV)

Automatically eliminates grainy images

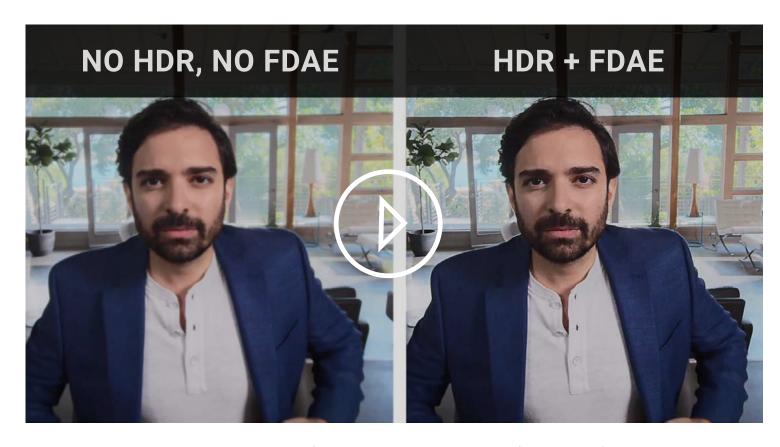

Temporal Noise Reduction (3DNR) and Spatial Noise Reduction (2DNR) eliminates motion blur and grainy images, ensuring crisp and clear picture quality even in low light.

Product availability may vary by region and product features may vary by model; please refer to Dell.com for more details. All images shown on this page are for illustrative purposes only.

Look your best

The perfect combination of Digital Overlap HDR (DOL-HDR) and Facial Detection Auto Exposure (FDAE), automatically optimizes image quality to help you look your best, always.

Microphone Flip

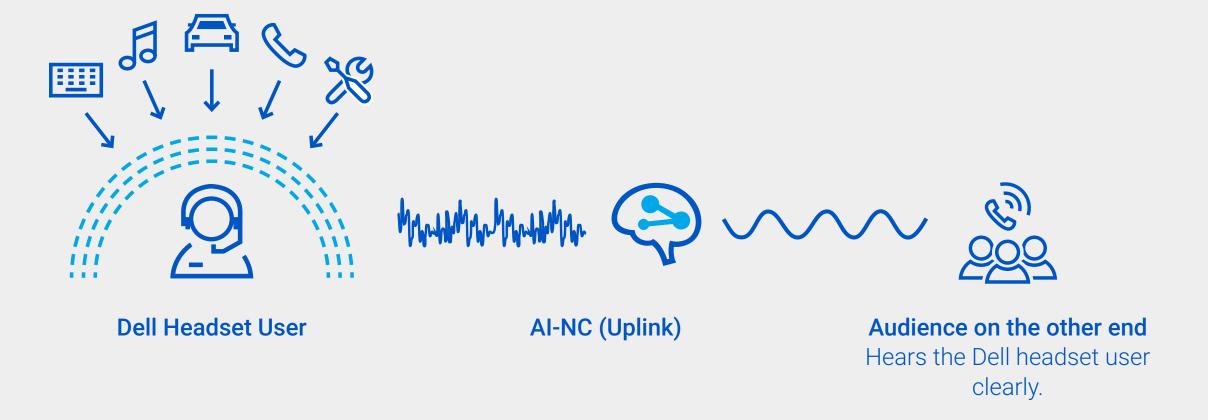

Hear and be heard clearly with Al-Noise Cancellation (Al-NC)

Utilizing a robust AI-based processing model, our intelligent noise cancellation distinguishes human speech signals from background noise and filters out unwanted noise with precision, ensuring uninterrupted, crystal-clear communication.

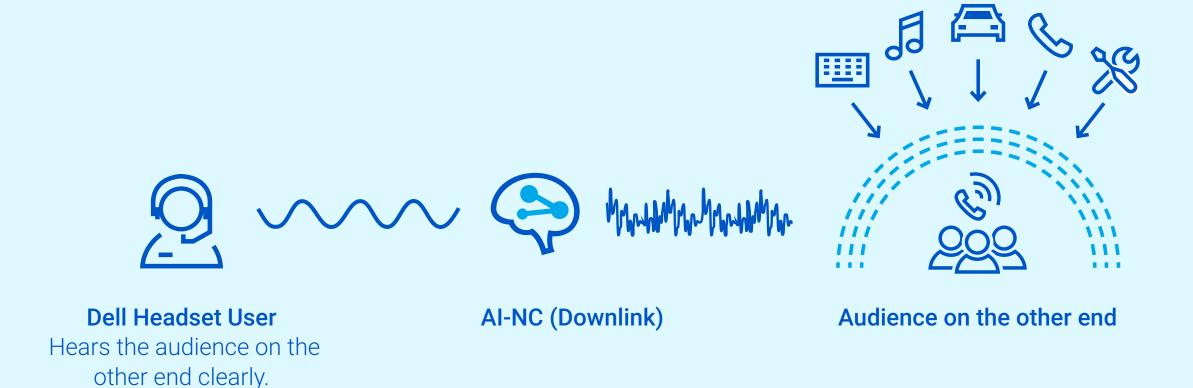

AI-NC microphone (Uplink)

Removes unwanted noise from your surroundings, so your audience can hear you clearly.

AI-NC (Downlink)

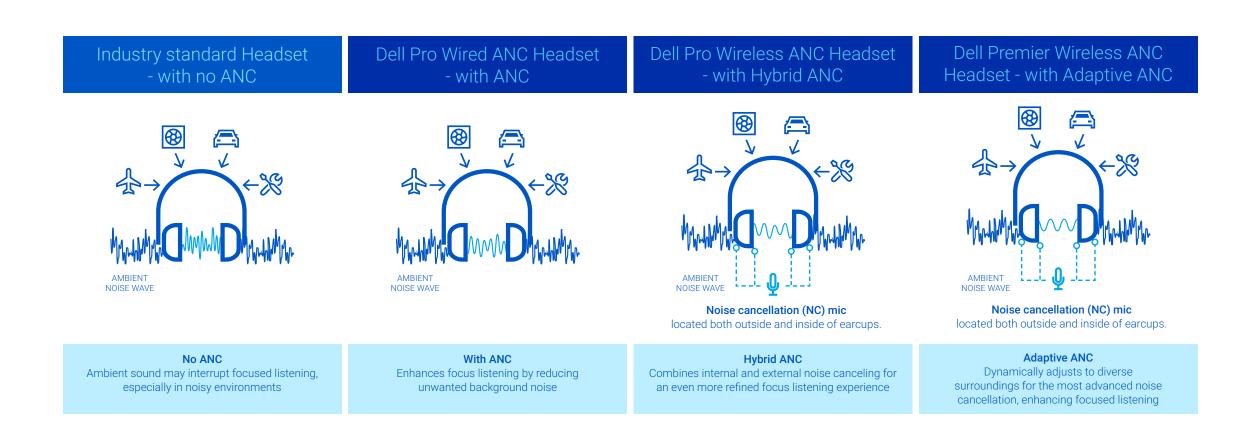

Removes unwanted noise from your audience's surroundings, so you can hear them clearly.

Product availability may vary by region and product features may vary by model; please refer to Dell.com for more details.

Focus listening with Active Noise Cancellation (ANC)

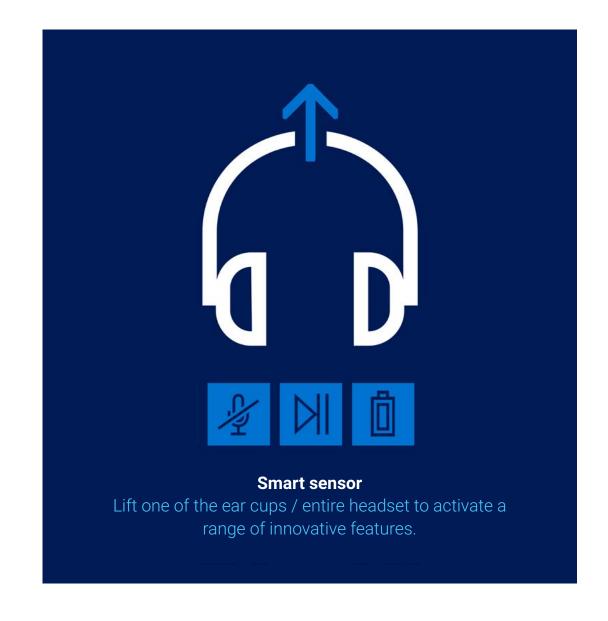

By neutralizing and cancelling out unwanted ambient noise, active noise cancellation makes it easier to focus on what you're listening to.

Smart sensor

The smart sensor located in the headband and earcup automatically activates a range of intelligent features when either of the ear cups (Advanced smart sensor)/entire headset (smart sensor) is lifted, saving you time by not having to manually mute/pause/play.

Battery life is extended even further thanks to the smart sensor's faster activation of low power mode.

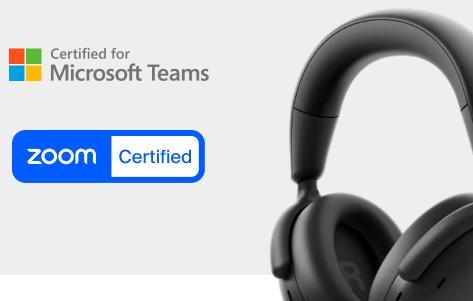

Mic flip

For ultimate convenience, mute or unmute quickly and efficiently with the mic flip feature.

Wireless headsets

Premium wireless headset with dual-directional Al-based noise cancellation and Adaptive ANC for a truly immersive collaboration experience.

Dual-direction Al-Noise cancellation

Adaptive Active Noise Cancellation (ANC)

Our advanced AI-NC sets a new standard. While many headsets focus on one side of the conversation, our robust technology covers both. It intelligently distinguishes human speech signals from background noise and filters out unwanted noise with precision, ensuring uninterrupted, crystal-clear communication for both you and your audience.

Environment with AI-NC On¹

Environment without AI-NC²

Adaptive Active Noise Cancellation (ANC) intelligently adapts the levels of noise cancellation according to the surroundings, reducing environmental noise effectively in a variety of settings.

Dell PeripheralManager for Webcams

Easily enable and customize the following features* and settings based on your preference.

Get to work, fast

Enable proximity sensor that detects and allows you to sign-in to your device quickly with Windows Hello. Enable and customize walk away lock that keeps your PC secure by automatically locking your screen when you walk away.

Look great, always

Enable HDR and Auto White Balance feature that will help deliver true-to-life colour in extreme lighting environment.

Keeping you in focus

Enable AI auto framing that help tracks your movement and keeps you at the center of the picture, however you move. You can also control tracking sensitivity, framing size and camera transition.

Enhanced experience

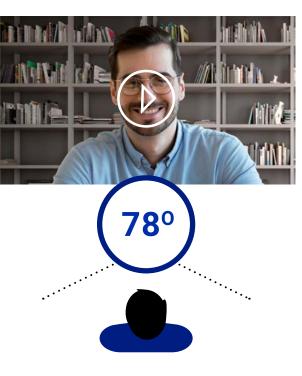

Select video presets as well as creating your own custom preset. Other customizable user settings include color adjustment, brightness, sharpness, contrast, resolution and frame rate.

Present your best

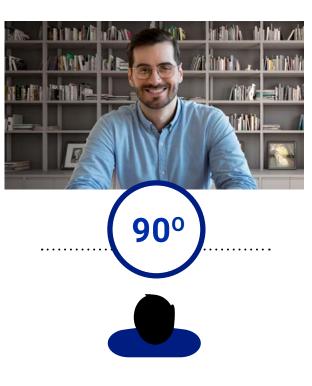

Customize how much you want to show of your surroundings by adjusting your **field of view.** Get closer to your audience than ever before with **digital zoom** and **auto focus.**

Best for face-toface conversations.

Keeps you as the main focal point of the scene while providing more context for your location.

Wide-angle, ideal for showing objects or whiteboard content.

Background

Docks

Power productivity with Dell Docks

Fastest charging

Increase your power delivery and charge faster with docks that deliver up to 210W of power.

ExpressCharge allows for an 80% charge on your PC's battery in one hour¹, while ExpressCharge Boost provides 35% charge in 20 minutes on compatible systems².

Enhanced productivity

Enhance productivity with Dell's powerful docks and connect multiple monitors and accessories with a wide range of connectivity options.

Future-ready design

Dell offers a line of docks that are the first in the world to feature a modular design letting you upgrade connectivity and power³ when you need it.

Find out more about modular docks. (>)

Intelligent management

Streamline the deployment and mangement of all docks in the family with a single firmware, regardless of their connectivity. Perform firmware updates in minutes without needing to reboot the system.

Support

Dell Docks come with a 3-year Advanced Exchange Service⁴. If replacement becomes necessary, Dell will send a new dock the next business day during your Limited Hardware Warranty period⁵.

Product availability may vary by region and product features may vary by model; please refer to Dell.com for more details.

1 Within Dell Power Manager software, selecting ExpressCharge™ can recharge system battery from 0% up to 80% within 60 minutes. After charging speed will return to normal speed. Recommended with a smaller capacity power adapter. Charging time may vary +/-10% due to system tolerance.

2 Within Dell Power Manager software, selecting either the Default mode of Adaptive Charge or ExpressCharge™ can recharge system battery from 0% up to 35% within 20 minutes when system battery can then continue charging up to 80% within 60 minutes. After charging has reached 80% capacity, charging speed will return to normal speed. Recommended for use with the provided Dell power adapter; not recommended with a smaller capacity power adapter. Charging time may vary +/-10% due to system tolerance.

Features

	Feature	Why It Matters
S C	PXE Boot	Allows for your PC to be imaged from a server on the network.
格	Wake-On-LAN	Allows IT administrators to wake a PC remotely using a signal when the PC is on the corporate network.
₽≪	MAC Address Pass-Through	Allows IT administrators to uniquely identify PCs on a corporate network with a system-unique MAC (media access control) address in the system BIOS replacing the MAC address of the device. MAC Address Pass-Through not available with non-Dell systems.
00=	Port Disablement	Allows IT administrators to configure the system BIOS to disable downstream ports on the device to keep confidential information secure.
7	Dell ExpressCharge™	Provides up to 80% battery charge in just one hour.
⇔	Power delivery up to 90W	Single cable offers data, audio, video and power to Latitudes and XPS laptops - up to 90W.
⇔	Power delivery up to 210W	Single cable offers data, audio, video and power to Precision, Latitudes and XPS laptops - up to 210W.
(h	Wake-On plug	Automatically turns on your laptop – that is powered down or on standby – and connects to the peripherals attached when you connect the USB-C cable to your laptop.
®	Power button sync	Power up / wake up the laptop and monitor by pressing the power button on the dock. Applicable with select Dell notebook computers only.
	Dell Performance Mode	Allows select Dell Precision Mobile Workstations to provide native graphics output from discrete GPUs for up to 8K resolution or three 4K external displays while simultaneously providing 10 Gbps of USB data through a single cable.
(5)	Remote firmware updates	Deploy firmware updates remotely with existing tools like SCCM or use Dell Command Update to automatically check for the latest BIOS, firmware or drivers required for the dock and PC.
\triangle	Error messages and dock event notifications	Dell Power Manager helps users understand when the power adapter connected to the dock is not capable of providing enough power to both the laptop and the dock.

Multiport Adapters

1. Dell 7-in-1 USB-C Multiport Adapter – DA310 2. Dell 6-in-1 USB-C Multiport Adapter - DA305

Featuring a wide array of ports, the compact Dell 7-in-1 (DA310) or 6-in-1 (DA305) USB-C Multiport Adapter offers video, network, data connectivity and up to 90W power pass-through for your laptop. What's more, DA310 offers extensive enterprise level features such as MAC address pass-through, PXE Boot, Wake-OnLAN when used with Dell PCs.

3. Dell Adapter USB-C to HDMI/DP with Power Pass-Through

Its USB-C pass-through allows you to charge your laptop up to 90W while connecting to an external 4K HDR display at 60Hz simultaneously without compromising on screen performance.

D¢LLTechnologies

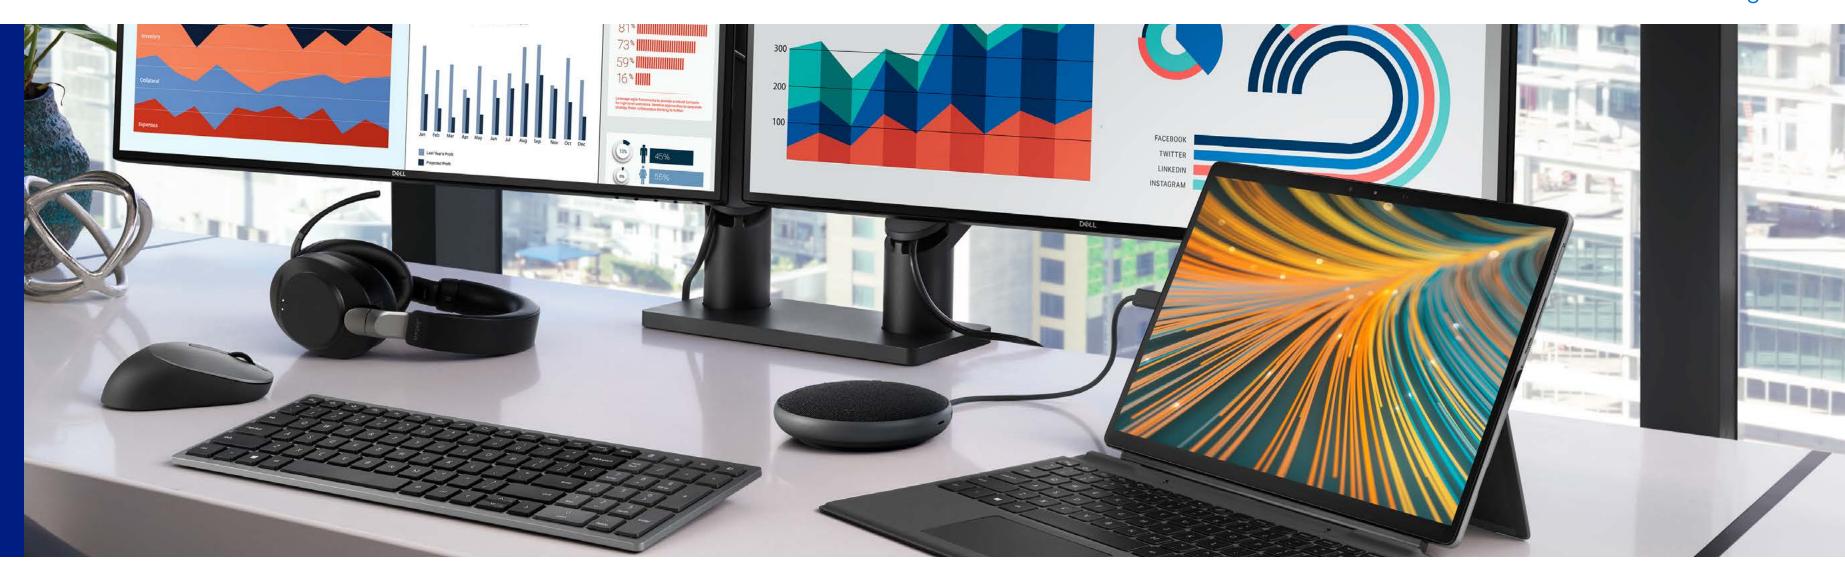

Arms & Stands

Optimize your workspace with arms and stands designed to perfectly complement Dell monitors, from the world's #1 monitor company¹.

Thoughtfully designed

Create the ultimate clutter-free workspace with a Dell arm or stand that cleverly conceals cables within a small footprint.

Superb adjustability

Tilt, pivot, swivel and adjust the height of your monitor to your preferred angle for all day comfort.

Convenient mounting solutions

Effortlessly mount your VESAcompliant monitor on a Dell arm or stand, with virtually tool-free assembly.

Sustainability

Selected Dell Arms and Stands are made with sustainable materials and all are shipped in packaging with components that contain up to 80% recycled content.²

Environment

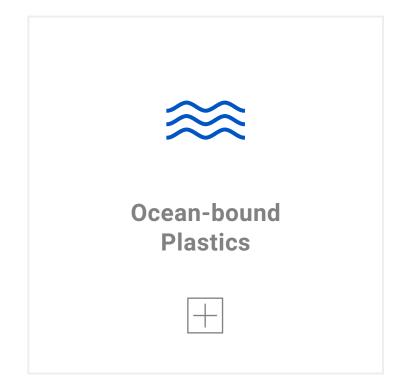

How Dell Carrying Cases make a difference

True to our Dell Technologies 2030 Sustainability Moonshot goals, all our EcoLoop™ label products are made with recycled materials and/or are manufactured using at least one of the following 4 processes that reduce the environmental impact.¹

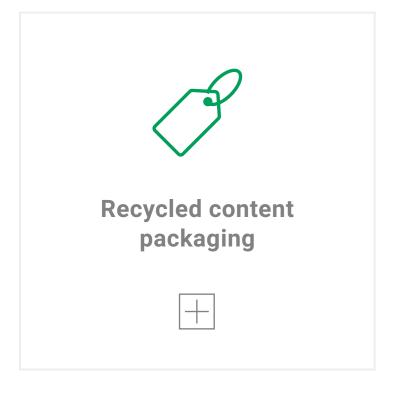

EcoLoop™

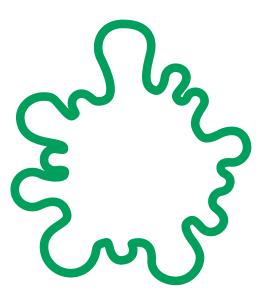

Responsible Dyeing Process

Through our responsible dyeing process, fabrics are woven from solution-dyed yarns, incorporating colour directly into the fibers prior to weaving. This process can generate up to 97% less greenhouse gas emissions, water impact, and fossil fuels than traditional dyeing processes³.

3 These results were calculated using Higg MSI 3.6 available at app.worldly.io. They were calculated by Positive Scenarios Consulting, LLC and are not verified by Higg.

This process can generate up to

9/0/0

vater impact

less fossil fuels

less greenhouse gas emissions

Recycled Polyethylene Terephthalate (rPET)

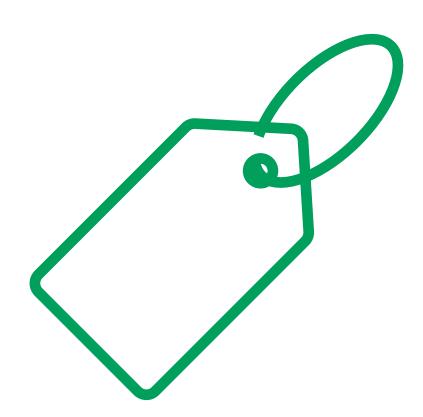

Selected products are constructed partially from **post-consumer recycled** PET (rPET). By using recycled materials, we've diverted 182 metric tons of recycled plastic, equivalent to 19 million plastic bottles.⁵

This process can generate up to 76% reduction in greenhouse gas emissions, up to 85% less water impact, and utilizes up to 90% less fossil fuels than virgin polyester.⁶

5 Based on internal analysis, October 2023. Plastic bottle estimate assumes a 500ml plastic water bottle.

6 These results were calculated using Higg MSI 3.6 available at app.worldly.io. They were calculated by Positive Scenarios Consulting, LLC and are not verified by Higg.

Recycled Content Packaging

Our hang tags, hang loops, and plastic bags are constructed using 100% recycled content.

Ocean-bound Plastic

By incorporating ocean-bound plastics into select products, we've diverted 315 metric tons of ocean-bound plastic² from ocean coastlines and major waterways. That's equivalent to 34 million plastic water bottles.²

Each year, an estimated 11 million metric tons of plastic waste enter the Earth's Oceans.⁵ To help remedy the ocean plastic crisis, Dell Pro series exterior main fabric is made with 100% ocean-bound plastic certified by OceanCycle™.⁶

EcoLoop[™]

*Only applicable to the exterior main fabric on Dell Pro series

OceanCycle Certification Criteria

Material Collection:

Fits within OceanCycle's standards of proximity to the coastline in an area of mismanaged waste.

Ethically Sourced:

Must be post-consumer waste from the location of origin and collected in an ethical manner ensuring no harmful child labor and fair wages waste.

Environmental Practices:

Wastewater and chemicals must be disposed properly.

Documentation:

Compliance with Ocean
Cycle's end-to-end
traceability, documented
from bottle collection
through to manufacturing.

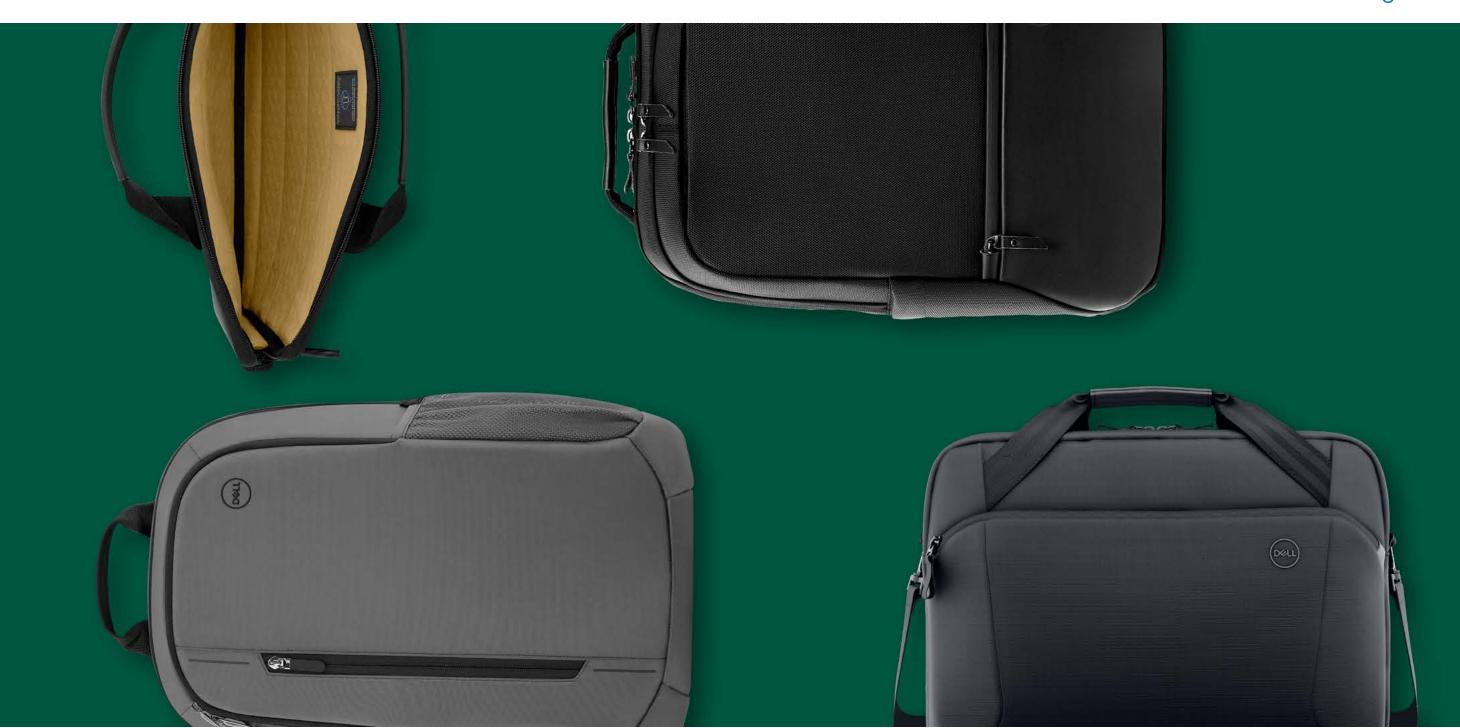

- 2 Based on internal analysis, October 2023. Plastic bottle estimate assumes a 500ml plastic water bottle
- **5** Source : Source: https://oceancycle.co/ocean-bound-plastic-certification/
- 6 OceanCycle Certified™ purchased yarn. Ocean-bound plastic is waste collected within 50 kilometers (30 miles) of an ocean coastline or major waterway
